CSC 350 - INTERNET TECHNOLOGIES

CREDIT HOURS: 3
PREREQUISITES: CSC 101, 102 or 121.
GRADE REMINDER: Must have a grade of C or better in each prerequisite course.

CATALOG DESCRIPTION

Technology, structure, limitations and uses of the Internet. E-commerce and digital transactions. Web page design. May not be used to satisfy computer science requirements for a computer science or computer information systems major or a computer science minor.

PURPOSE OF COURSE

The purpose of the course is to develop awareness of the technology, structure, limitations and uses of the Internet, with a focus on developing web pages using HTML and CSS.

EDUCATIONAL OBJECTIVES

Upon successful completion of the course, students should be able to:

1. Demonstrate an understanding of the technology, structure, limitations and uses of interconnected computer network systems.
2. Design and develop web pages.
3. Solve problems which can arise in the development of web pages and web sites.
4. Describe strategies which can be used to learn new and/or different web based technologies.
5. Identify a variety of applications available via Application Service Providers.
6. Function effectively on teams to accomplish a common goal.
